COMING SOON! Dual Adjustable Aluminum Shocks

- Lightweight, aluminum twin-tube design with a sleek clear anodized finish.
- Independently adjust the compression and rebound: 19 positions of compression and 19 positions of rebound adjustments allow for a total of 361 different valving combinations.
 - Large adjustment range allows for settings for comfortable cruising, to road racing, and everything in between.
- Adjustment knobs clearly labeled with “C” for compression and “R” for rebound.
- Machined aluminum piston with deflective disk technology and a PTFE / bronze piston seal.
- 5/8” centerless ground hard chrome-plated piston rod.
- Advanced three-step sealing system.
- All shocks can be rebuilt or revalved by Flaming River.
- Variety of custom or stock mount styles available.
- Each shock is factory Dyno tested and serialized.
- Installation kits sold separately. Coil-over spring kits also available.
- Made in the USA.
