“Shorty” 1957 Chevy Tilt Steering Columns

Flaming River introduces its all new “Shorty” 57 Chevy Tilt Steering Column—the shortest you can find with a 6-3/8” shroud! These all-new columns feature a 2” tube diameter and bolt directly into the existing dash bezel just like the original. Each column includes a billet aluminum dress up kit (tilt lever, turn signal lever, and hazard knob), as well as GM wiring and a cancelling cam.

These columns are available in a Floor Shift or Column Shift design with the option of a paintable mill finish or polished stainless finish. Column Shift columns come complete with a neutral safety switch as well as a removable shifter arm with 12 locating positions. Made in the USA and backed with a 3-year warranty and lifetime serviceability.
