2015 Challenger Manual Rack and Pinion

This all-new manual rack and pinion design is a direct-fit unit for the 2015 Challenger. This rack is significantly lighter than the factory power steering system by eliminating hoses, pulleys and pumps and offers improved handling characteristics. A shorter pinion shaft allows for more clearance when working with large tube headers and engine swaps in custom applications. Made in USA.

Product Specs:

- Bolts into same mounting location as OEM Power Rack
- Overall length: 51.25"
- Pivot points: 26.01"
- Mounts center-to-center: 18.21" (.500" diameter mounting holes)
- 9/16"-26 spline pinion shaft
- Inner tie rod end thread: M16 X 1.5
- Inner tie rod end length: 14.00"

FR1515MPR – 2015 Challenger Manual Rack and Pinion
