

Product News From

Flaming River® is now an authorized distributor for Littlefuse® products!

Adding fuses and emergency fuse kits to their alternator and electrical line.

BEREA OH, December 11, 2017 – Flaming River Industries Inc.®, the industry leader in battery disconnect switches and high output alternators now offers a variety of Littlefuse® emergency fuse kits. Covering OEMs such as Ford, GM, and Chrysler, as well as diagnostic kits that can be used to test and replace fuses on the go.

Be sure to check out the Smart Glow fuses that automatically identify faulty fuses with a glowing LED light. For bulk fuse needs look for Super Value Packs of up to 60 fuses to keep you stocked and ready along with Red Box modules offering bulk fuses in multiple types and configurations stored inside one compact, portable, and organized carrying case. Also offered are specialty products such as 12V/40A plug-in relays, in-line fuse holders, anti-theft battery disconnect switches and alternators, rounding out their product offering.
